

Gallagher&Kennedy

TAX LAW

You will find a great depth of experience in international, federal, state and local tax matters with the Gallagher & Kennedy tax law team.

Our attorneys help clients achieve their business and investment objectives while minimizing their federal, state, and local tax obligations. We assist our clients through sophisticated tax planning, structuring, documentation, and consulting services and, when necessary, through representation in civil tax controversies at the administrative, appellate, and judicial levels of federal, state, and local government.

We are experienced in complex tax matters for businesses of all sizes and in many diverse industries. Our clients range from publicly-traded Fortune 500 companies to closely-held businesses to tax-exempt organizations, and also include individuals, trusts and estates. Whether domiciled in Arizona, other states, or operating internationally, we work with you to anticipate, manage, or solve your tax issues.

As proactive tax advisers who work to understand your unique tax circumstances, we help you seize opportunities presented by a change in tax law or a nuanced interpretation of existing law.

Our tax experts include attorneys whose expertise includes all areas of federal taxation, ERISA, employee benefits, executive compensation, estates and trusts. A majority of our tax team members are CPAs and LL.Ms.
