

## PLAINTIFF'S PERSONAL INJURY & WRONGFUL DEATH

### FRAUD AND COMMERCIAL TORTS

The G&K Personal Injury and Wrongful Death group's clients include victims of fraud, securities fraud, commercial malfeasance and breach of contract. Our experience in proving mistakes and negligence combined with our courtroom success make our team a formidable force in fraud, securities fraud liability, and business tort cases. Our understanding of the financial consequences of fraud and commercial tort cases also often allows us to consider non-traditional payment arrangements such as working on a completely or partially contingent fee basis.

Representative cases include:

- \$15 million arbitration verdict for breach of contract on behalf of healthcare provider against hospital.
- Turned \$200,000 settlement into \$2.3 million after discovering insurance carrier and attorney committed fraud regarding amount of insurance available for claim.
- Obtained \$1.7 million for family against automobile dealership for failure to disclose truck sold as "new" had been stolen, damaged and fitted with used, defective tires.
