

NATURAL RESOURCES

NATURAL RESOURCES LOBBYING, LEGISLATION & ADVOCACY

Gallagher & Kennedy effectively represents natural resource trade organizations and companies before the Arizona and New Mexico legislative and executive branches. Our clients include trade organizations representing the mining, agriculture, oil and gas, fertilizer, biotechnology, and manufacturing industries.

We assist in developing and seeking passage of legislation promoting our clients' interests and opposing unfavorable legislation. We also help to develop and propose new rules before administrative agencies, boards and commissions, to develop comments and testimony on proposed rules that affect our clients' interests, and represent clients in rulemaking hearings and appeals.
