

PLAINTIFF'S PERSONAL INJURY & WRONGFUL DEATH

MEDICAL MALPRACTICE

With their professional reputations at stake, many doctors and their employers and insurers will viciously dispute that they did anything wrong in even the most obvious cases of medical negligence. And medical malpractice claims are often too difficult, too technical, or too expensive for many attorneys to pursue. When you've been injured by medical malpractice, you need the toughest, most knowledgeable, and most experienced medical malpractice attorneys in Arizona on your side. Representation by the attorneys in G&K's Plaintiffs' Personal Injury and Wrongful Death group evens the playing field against the doctors, hospitals, and insurance companies so that you can receive fair compensation when medical error causes harm.

Representative medical malpractice cases include:

- \$5.5 million settlement for failure to diagnose brain dysfunction.
- \$3 million verdict for failure to diagnose a vertebral osteomyelitis.
- Confidential settlement involving a minor and improper medications.
- \$2 million verdict for failure to diagnose compartment syndrome.
- \$2 million settlement for failure to diagnose systemic disease.
- \$2 million verdict involving compartment syndrome.
- \$1.7 million settlement involving birthing injury.
