

## SECURITIES

### PRIVATE EQUITY

Gallagher & Kennedy represents companies and negotiates, documents, and fulfills compliance requirements for private equity investments. For clients who prefer to seek institutional investors, we have represented companies in numerous industries in negotiating and documenting investments from private equity funds. These investors often prefer to keep the companies private but have extensive oversight and require companies to comply with ongoing reporting requirements to the fund.

We also form, document and advise private equity and bridge funds that invest in alternative investments and are often funded by pension plans, family offices or super-accredited investors.
